Séminaire moderne et contemporain

Modern and Contemporary Studies Seminar

Le Séminaire moderne et contemporain est un moment d'échange dans lequel les chercheurs des programmes de la section moderne et contemporaine et des intervenants invités peuvent présenter leurs travaux en lien avec les axes thématiques de l'EFA et avec la programmation scientifique de la section, mais aussi avec l'actualité de la recherche sur les Balkans et la Méditerranée orientale. Lieu de rencontre entre chercheurs venant d'horizons différents, le séminaire vise tout à la fois à valoriser les recherches menées à l'EFA en histoire moderne et contemporaine, anthropologie, géographie, sociologie et histoire de l'art (et autres), et à faire connaître auprès de la communauté de l'EFA les recherches menées dans d'autres institutions de la région.

The Modern and Contemporary Studies Seminar is a moment of exchange gathering guest speakers and researchers from the programs of the modern and contemporary section. They are invited to present their work in connection with the structuring themes of the EFA and the research agenda of the section, as well as with current research on the Balkans and the Eastern Mediterranean. As a meeting place for researchers from different backgrounds, the seminar aims to promote the research carried out at the EFA in modern and contemporary history, anthropology, geography, sociology and art history (and beyond), but also to disseminate to the School's community research carried out by several institutions in the area.
